# GC550
## 2K Mini Body Camera

Hytera GC550 2K Mini Body Camera is designed to capture clear photos and videos as objective evidence from the field to the court. It boasts a variety of powerful features, both hardware and software, to promote transparency of law enforcement and workplace interaction, as well as to ensure safety for professionals on duty. Its 2K HD wide-angle camera records more details in a super-wide field of view.

GC550 as a new member of the Hytera body camera series is the smallest in size and lightest in weight; its ergonomic layout and shape make it easy to operate single-handedly. The sliding switch enables the quick start of recording in emergencies and intuitively shows the recording status through its position.

## Light but Powerful

Smaller than a standard business card and weighing less than 115 grams, GC550 is easy to hold in the palm or clip-on the outfit of officers who are always on the go. This compact but mighty camera lightens the everyday carry for frontline officers.

**115 g**

## Stress-free Wearing Experience

Officers can wear GC550 on the epaulette or the front pocket by using different carrying accessories. A 360° swivel clip allows officers to easily rotate GC550 and find the best recording angle.

## Power Extra-long Shift

GC550 has a field replaceable main battery that can record videos continuously up to 9 hours at 720p. For an extra-long shift, take a spare battery, and swap it quickly for another 9 hours. During battery replacement, GC550 can keep recording for 5 minutes thanks to the built-in backup battery.
## Stunning Details with 2K Resolution

Video resolution matters. GC550 records every encounter that occurs around officers in ultra-clear 2K resolution. Such clearer and smoother videos help to reveal crucial details for judiciary professionals, who can better understand what happened and make more informed decisions accordingly.

## Slide to Record, Quick and Right

The intuitive sliding switch makes recording activation easier than ever. Its changes of physical position on the camera help officers to know whether the recording is on or off with a simple glance, even in intense and stressful situations.

## Data Airbag

Data security design, to deal with sudden drop or impact, to ensure that the recorded video is automatically saved in time.
